Dream College: Amboseli College

Duration: 2.5 years

Cost per year : \$3,000

“I dream of becoming a human resources professional!”

## Rookie Record

**Carol, tell us a little bit about yourself!** “I am a bright and social girl with hardworking and caring parents who struggle every day to make ends meet. I can be a little reserved and shy at times but HHFL has really helped me to come out of my shell and become a good student. In my free time, you’ll find me playing badminton and table tennis!”

**What does going to College or University mean to you?** “Going to college is important to me because it will allow me to attain my career goals and prove to myself and others that I am capable. With a combination of hard work and a positive attitude, I know that a college degree will help me to succeed and become independent.”

**What inspired you to choose your dream career path?** “I like to think of myself as someone who is very perceptive – I feel like I am able to read people easily and know their strengths and weaknesses so naturally human resource management has been something that I’ve been very interested to learn more about.”

**Why do you deserve this opportunity?** “I believe I deserve the opportunity to go to College to study human resource management because I know that it will be a career that will make me the most happy and successful. When I do become successful, I would like to use my newly acquired skills to guide my community and nurture the passion of Kenya’s youth.”

**If you could walk in someone else’s shoes for one day, who would you choose and why?**

“I would choose Robert Njogu who is a human resource manager at Kencall EPZ Ltd. I would want to walk in his shoes for a day because I would like to know more about how he has come to be an assertive, brave, and passionate leader. I would use that knowledge to work on my own development, particularly my level of confidence, so I can succeed in my own career!”
